

Juphoon PoC Client Solution

PoC Client Framework — PCF

- Highly efficient protocol stack**
 Protocol stacks including SIP, HTTP, XML, and XCAP all have highly efficient performance in processing and use less memory space
- Compliant with standards**
 It complies with standards made by OMA, IETF, the Information Industry Department, China Mobile, and etc.
- Mature and stable modules**
 ZOS, SIP, XML, and other software have been applied in some mature commercial products
- Operation systems**
 Support iPhone/Android/Windows/ThreadX, and etc.

Applications

This solution has been deployed to Leadcore Larena™ platform for the TD-SCDMA mobile phone.
